

## Recombinant *Staphylococcus saprophyticus* subsp. *saprophyticus* ATCC 15305 SSP\_RS06515 protein, His-tagged

### SPECIFICATION

|                         |                                                                                                                                                         |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Cat.No.</b>          | SSP-RS06515-0218S                                                                                                                                       |
| <b>Species</b>          | <i>Staphylococcus saprophyticus</i>                                                                                                                     |
| <b>Product Name</b>     | Recombinant <i>Staphylococcus saprophyticus</i> subsp. <i>saprophyticus</i> ATCC 15305 SSP_RS06515 protein, His-tagged                                  |
| <b>Product Overview</b> | Recombinant <i>Staphylococcus saprophyticus</i> subsp. <i>saprophyticus</i> ATCC 15305 SSP_RS06515 full length or partial length protein was expressed. |
| <b>Source</b>           | <i>E. coli</i> or Yeast                                                                                                                                 |
| <b>Tag</b>              | His                                                                                                                                                     |
| <b>Form</b>             | Liquid or lyophilized powder                                                                                                                            |
| <b>Endotoxin</b>        | < 1.0 EU per µg of the protein as determined by the LAL method.                                                                                         |
| <b>Purity</b>           | > 80% by SDS-PAGE                                                                                                                                       |
| <b>Notes</b>            | This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.                        |
| <b>Storage</b>          | Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.                                                                     |
| <b>Storage Buffer</b>   | PBS buffer                                                                                                                                              |
| <b>Gene Name</b>        | SSP_RS06515 3-phosphoshikimate 1-carboxyvinyltransferase [ <i>Staphylococcus saprophyticus</i> subsp. <i>saprophyticus</i> ATCC 15305 ]                 |
| <b>Official Symbol</b>  | SSP_RS06515                                                                                                                                             |
| <b>Synonyms</b>         | SSP_RS06515; 3-phosphoshikimate 1-carboxyvinyltransferase                                                                                               |
| <b>Gene ID</b>          | 3616910                                                                                                                                                 |
| <b>UniProt ID</b>       | Q49XS0                                                                                                                                                  |
