

Biological Fertilizer - *Lactobacillus Plantarum*

SPECIFICATION

Cat.No.	PGPR-0016BF
Product Name	Biological Fertilizer - <i>Lactobacillus Plantarum</i>
Product Format	Powder
Type	Biological Fertilizer
Function	Decompose lignin and cellulose which are not easily decomposed under normal conditions, and ferment and decompose organic matter. Inhibit the disease-causing proliferation of continuous.
Effective Microbes	$\geq 10^{10}$ CFU/g $\geq 10^{11}$ CFU/g
Solubility	Water Soluble
Appearance	Light Yellow Powder
Storage Temperature	Room temperature
Shipping temperature	Room temperature
