

Recombinant Mycobacterium tuberculosis mpt64 protein, His-tagged

SPECIFICATION

Cat.No.	mpt64-902M
Species	Mycobacterium tuberculosis
Product Name	Recombinant Mycobacterium tuberculosis mpt64 protein, His-tagged
Product Overview	C-terminal 6xHis fusion protein of antigen Mpt64(Rv1980c) (M. Tuberculosis/H37Rv)(a.a.1-232) (Genbank Accession No. NP_216496). Predicted possible vaccine candidate, which is immunogenic protein. Exported protein containing an N-terminal signal sequence.
Description	Mycobacterium tuberculosis is an obligate pathogenic bacterial species in the family Mycobacteriaceae and the causative agent of tuberculosis. First discovered in 1882 by Robert Koch, M. tuberculosis has an unusual, waxy coating on its cell surface primarily due to the presence of mycolic acid. This coating makes the cells impervious to Gram staining, and as a result, M. tuberculosis can appear either Gram-negative or Gram-positive. Acid-fast stains such as Ziehl-Neelsen, or fluorescent stains such as auramine are used instead to identify M. tuberculosis with a microscope. The physiology of M. tuberculosis is highly aerobic and requires high levels of oxygen. Primarily a pathogen of the mammalian respiratory system, it infects the lungs. The most frequently used diagnostic methods for tuberculosis are the tuberculin skin test, acid-fast stain, culture, and polymerase chain reaction.
Source	E. coli
Tag	His
Form	Each vial contains 100 µg of lyophilized protein in PBS with 8M Urea. Reconstitute the protein with 100 µl of Millipore water.
Protein length	aa1-232
Purity	>95%, based on SDS PAGE
Applications	WB standard, antibody ELISA, immunogen, etc.
Storage	Before reconstitution, stable for 1 year at -20°C from the date of shipment. After

Recombinant Mycobacterium tuberculosis mpt64 protein, His-tagged

reconstitution, stable for a month at 4°C. Nonhazardous. No MSDS required.

Gene Name	mpt64 immunogenic protein Mpt64 [Mycobacterium tuberculosis H37Rv]
Official Symbol	mpt64
Synonyms	mpt64; immunogenic protein Mpt64
Gene ID	885925
Protein Refseq	NP_216496.1
UniProt ID	I6YC43
